

Kurodake Ski Resort - Outside the controlled Area (Backcountry) Mountain Entry Permit

- 1 . Areas outside the controlled boundaries of the Kurodake Ski Resort are not under the jurisdiction or responsibility of Rinyu Kanko Co., Ltd. Beyond the ski area, there are numerous hazards such as avalanches, hidden rocks, and other obstacles (even just past the boundary). These "uncontrolled slopes" are not maintained or monitored. Rinyu Kanko Co., Ltd. accepts no responsibility for any accidents that occur outside the controlled ski area.
- 2 . If you are lost or injured outside the controlled areas, please contact the police (dial 110) directly.
- 3 . When entering areas outside the Kurodake Ski Resort controlled areas, ensure to be fully equipped and have a personal system in place to communicate in case of an emergency.
- 4 . Please be aware that it may take considerable time for rescue or search teams to reach when you outside the controlled ski area. Public rescue helicopters may not be able to operate due to weather conditions, wind, or involvement in other rescue missions. In such cases, ground-based rescue will be necessary, which will take even more time.
- 5 . If a rescue request requires after-hours operation of the Kurodake Cable Car or Ski Lift, additional transportation fees will be charged (details available in a separate document). In addition to these, all other rescue-related costs must be borne entirely by the individual.

*Items 1 to 5 above are based on the Kurodake Ski Resort Terms and Conditions.

Rinyu Co., Ltd.

I have read, understood, and accepted all of the above.
